🌐 Timon Bestebreur

Born 20th August 1998

EXPERIENCE

Since June 2019

System Administrator - C.S.R. Delft

- Built and installed a linux server which hosts a website, acts as a DHCP server and stores documents and archives needed by the board of the Student Association C.S.R. Delft, which has around 300 members.
- Responsible for maintaining the server and fixing problems as they arise.

July 2018 - August 2018

Junior Software Engineer - Bexter

- Successfully built a visually appealing dashboard in Angular 6 using HTML/CSS and TypeScript.

EDUCATION

Since September 2017

Computer Science and Engineering - Delft University of Technology

- Expect to graduate around July 2023
- (Relevant) Completed Subjects: Object Oriented programming, Algorithms and Data Structures, Web and Database technologies, Algorithm Design, Operating Systems and many more.

September 2016 - July 2017

Reflection Year - Evangelische Hogeschool Amersfoort

- Took a year to invest in personal development.
- Improved my planning and presenting skills, helping me stay organized when dealing with big tasks or projects.

September 2010 - July 2016

VWO (Dutch high school) - C.S.G. De Goudse Waarden, Gouda
